Royal Insurance Company.

FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements; for the largest life bonuses (£2 per cent per annum) over continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £'00,000 in new life assurances for 1862, and a Fire revenue of £360,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 99 leading papers, speaks in the highest terms of this company.

The report for 1863 shews that all the property of the Co. amounting to £846,070 is real and substantial property: the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

Messrs. H. A. GREEN and Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

THURSDAY, DECEMBER 15, 1864.

EDITOR'S TABLE.

The non-arrival of the Teveré yesterday, caused some surprise. Some thought she had broken down, others that she had been sent to Paysandú or Colonia. It matters little what caused her delay, since the supplementary mail bag, which was unusually large, was taken to Montevideo by a Brazilian gunboat.

The Ranger, it appears, has not been purchased by Mr. Matti. She got up steam yesterday, and, if we are correctly informed, leaves for Paraguay to-day.

The Pavon, which arrived yesterday, brought very few passengers and no mails at all from the interior provinces. It would seem that owing to the Indian invasion the diligences have stopped running. Passengers who came down in the Pavon represent the state of things in the provinces to be very unsettled. There is a general cry out against Buenos Ayres, and agitators are going about charging the National Government with neglecting the provinces and squandering the public money in this city.

Pascual Rosas, who, the 'Nacion Argentina' stated, came down from Paraguay the other day and landed in Parana, it appears has been in Rosario all the time, never having left that town for the last three months.

All the gunpowder in town, we hear, has been purchased by a Montevidean gentleman. Merchants complain of the great difficulties put in the way of passing it through the Custom-house, as the permit must be signed by the President himself, who, generally speaking, is too busy with ministers and generals to attend to such matters.

Evaristo Carriego, the editor of the 'Litoral' of Parana, is preaching against any rising in Entre Rios. He shows that any such disturbances would be without any object; and very properly condemns the idea. We are glad to see so talented a writer joining the peace party and supporting the National Government.

Minister Paranhos, we are told, is most importunate in his friendly negotions with the President, and only asks for the Argentine flag and one hundred men, to settle up all the River Plate difficulties. President Mitre, we understand, refuses all alliance, and gives as his reason that his Government has no land forces, no sea forces, and, worse still, no money; under these circumstances, a neutrality is imperative.

Mr. Bilbao has take up the crusade against Paraguay, and treats the subscribers of the "Tribuna" to a very powerful exposition of his views on the subject. We regret that so talented a writer could not bring his genius to bear on a matter of more importance to the Argentines, than the Regeneration of Paraguay. The state of the frontier, and the impropriety of a republican government allowing the fellow citizens to be driven from their homes by the savages, surely, would be more to the point for Mr. Bilbao. 'All our troubles and misfortunes arise from the inconquerable desire of all our public men to improve the condition of their neighbors, neglecting in toto their own. If the Paraguayans prefer their system of government to ours, why not let them have it? Paraguay, with all its faults, allows no Indian invasions, although the whole country is surrounded by the most warlike tribes.

The people in Paraná are anxiously awaiting the arrival of the engineers from Buenos Ayres to survey the ground for the Nogoya Railway. We fear they will have to wait for some time.

Our friends, Messrs. Claypole & Brothers, have again to complain of not receiving the English papers: every one in town complains of the disappointment, but we believe the fault lies at home, and not here.

The last heavy wind we find caused more damage than was believed. In the country parts it has shelled the wheat and caused great loss to the grain growers, and in port two or three small vessels went to grief: two of them belonged to Mess. Casares; the cargo of one is completely lost, that of the other, being hides, etc., was saved.

Dr. Beccar has received an anonymous letter containing ten thousand dollars for the Retiro catastrophe fund. The "Pueblo," which it appears was shut out by some mistake from collecting funds for this meritorious purpose, has got up a list of its own, and we believe has collected more than any of our other colleagues.

Our colleague, the "Nacion Argentina," undertakes to defend the bombardment of Paysandú by the Brazilians. We have no time or space to refute the argument, but of the one hundred and fifty thousand inhabitants in Buenos Ayres, not one hundred can be found to excuse the act. Of one thing our colleague may rest assured, and that is, that not a single shell will be thrown into Montevideo. If the Orientals and Brazilians want to fight, it would be the greatest pity in the world to stop them, for not until they both get soundly thrashed shall we have peace, but they must go out and fight in the camp, for the city must and shall be respected.

Leandro Gomez has been made General. If all our generals had as good claim to the title, what a heroic army would we not have in the River Plate.

An awful case of sudden death occurred at the station of the tramway on Tuesday. A Frenchman who had already taken his ticket and was standing waiting for the train, dropped suddenly and expired instantaneously.

Mr. Ascuenaga, the emigration commissioner, evidently does not understand English, for he sends us one of his circulars with a request to insert it in our columns, when we published it more than a week ago. Mr. A. is evidently completely in the dark as to what is going on around him simply because he does not subscribe to the "Standard."

To-day will be a rather busy day in Brazil: the Emperor's daughter is to be married, and the Paraguayans are to seize San Borga. We hardly know which of the two events deserves the most importance.

Mr. Almagro, who died about a year ago, bequeathed fifty thousand dollars in charity, half to the women's hospital, and to the foundling institution. Mr. A. was a well known estanciero, living near San Antonio de Areco; he left a large amount of property.

Baron Tamandare, the Brazilian Admiral, is hourly expecting two thousand infantry soldiers from Rio per half a dozen gunboats.

Major Dias has concluded his enquiry into the Retiro catastrophe, and sent his report in to the President, which will be published in a few days.

The native ladies have contributed very handsomely to the Moron bazaar, which will take place on Christmas day.

General Virasoro, it appears, is in Rosario, instead of being marching at the head of the Paraguayans as was rumoured; he is canvassing for a friend.

There is a great stir in our military circles; the foreign legion goes to Corrientes; the 1st and 6th regiments of the line are ordered to town. Colonel Arredondo goes to San Luis to raise a few regiments.

The Dublin 'Freeman' and other papers in Ireland and Great Britain contain long notices of D. Eduardo Echegaray's land-grant and project of emigration near the Rio Cuarto, Cordoba. He has printed a pamphlet in London, and proposes to get up a company to send out Irish emigrants, giving 80 acres to each, and advancing passage-money and other expenses to be repaid in three years. Seeing the troubles of the River Plate, the crisis in England, and Indian invasions in Cordoba, his project cannot succeed.

The 'Wexford People,' 'Loughrea Journal,' and 'Irishman' of Dublin extract largely from our columns about River Plate matters.

We have received no letter this mail from our correspondent in Dublin. Our new supplements from Montevideo will commence with next French mail.

It is said the Traction-engine made a very successful trial trip on Wednesday, but we have not been favored with an account.

Sor. Marmol did not leave by the French mail, but will probably proceed per Mersey to Rio Janeyro as Argentine Plenipotentiary.

As no news arrived yesterday from Paysandú, we may guess Leandro Gomez still holds out. To-day we shall know the issue.

We received a request to subscribe two tickets for to-night's drama "Tal es el Mundo," for joint benefit of the Circulo Literario, and Retiro catastrophe: we have already subscribed to both purposes, and as Editors never pay in the theatre, we refrain from the pleasure of hearing the new drama.

The festival of Santa Lucia at Barracas was very brilliant on Tuesday evening, all the fashion and beauty of Buenos Ayres attending.

The new St. Martin's Theatre will be opened next the Provincial Bank. Messrs. Escudero have requested us to contradict the statement that it will be a singing-saloon: the performances will be Spanish comedy and *ballet*. It will be inaugurated on January 1st, 1865.

Respecting the rumored re-capture of Salto, we only extracted it from the 'Porvenir' of Gualeguaychu of the 8th inst.: we afterwards stated that we learned the news to be false.

Our 'Handbook' will not be ready until March, owing to the delays about engravings to be executed in England.

The s.s. Una arrived yesterday from Liverpool, 38 days, with several passengers.

THE PALLIERE ALBUM.

The December No. contains the following pictures:—

I. The pass of Uspallata. Of the three passes, Portillo, Uspallata, and Planchon, in the Cordillera of the Andes, from Mendoza to Chile, the subject of the present picture is best known. A long file of mules laden with merchandize for Valparaiso is threading its way down the inclined sinuosities of the perilous route which ever and anon winds around a projecting rock, leaving a path hardly 3 feet wide, with an abyss on the other side enough to make the stoutest heart tremble. A single false step would be destruction, but these sure footed animals display marvellous sagacity, being entirely left to their guidance. The foremost rider has reached a table land, from which there is a splendid view on either side of the snow-capped heights which rise to 20,000 feet. Major Rickard's work on the Andes gives account of the strange sensations experienced in the region of eternal snows. The square boxes with which these mules are laden, probably contain silver ore from San Juan. The pass of Uspallata has been crossed by some heroic ladies, including a friend of the famous Captain Head: it is closed for half the year, and the houses of refuge are much neglected by the Argentine Government.

II. Tobas Indians of the Gran Chaco. Human nature must blush at the degraded specimens of our race, in the group of eight savages taken by the artist from a scene of wild and picturesque beauty in the Chaco. A few rude blankets tied around the shoulders is almost their only covering and all the figures seem females, two of them having infants in arms. The countenances are brutal, the foreheads low, hair long and coarse, limbs muscular, and complexion dusky. It is difficult to comprehend how these barbarous people, so few in number and almost naked and unarmed can carry terror into the heart of the Republic, and paralyze every effort of industry or progress. The Tobas are very warlike and resist the attempts to convert them, having recently murdered the Franciscan missionaries. The field of palm-trees is singularly beautiful, the plains are interspersed with lagoons and pasturage, but there are no animals, nor signs of habitations or agriculture, the Indians living in some manner like the birds of the air, or on the labors of the white settlers.

The Galera-coach—A vehicle somewhat resembling a mail-coach and holding four persons, without any driver's seat, is drawn by 5 horses, ridden by as many postilions. There is no harness, but simply a rope attached to a ring in each saddle, and fastened to the shaft, in which manner the gaucho-riders, with loud cries and frequent lashes of the 'rebenque' urge forward their steeds at a full gallop. The fence near the beaten track used as a road, boasts a graceful flowering aloe, peculiar to the province of Buenos Ayres, and the vista of the open camp, with an ombú tree in the distance, shows that the estanciero's family are leaving town for their residence in the Pampas.

The Fruit-market of Bahia—Half-a-dozen of Brazilian slaves or negroes are offering for sale the varied fruits of their favored clime: the luscious banana, sweet oranges, figs, &c. A black porter is arguing with a woman, who has an infant curiously slung on her hip. In the back ground is a handsome church, whose tasteful architecture relieves the ugly features of Dom Pedro's colored subjects.

TERRIBLE NEWS FROM THE PROVINCES.

INVASION BY 2500 INDIANS.

The curse of Heaven has fallen on the Argentine Republic; death, disaster and destruction are the order of the day, and every mail from the interior brings fresh accusations against the Government for devoting its attention to our neighbors' business and neglecting the vital interests of the Republic.

From Rio Cuarto, we have dates to the 9th inst. At 8 o'clock on the morning of the 8th, a body of 500 Indians appeared at the Paso Durazno, 7 leagues distant from Rio Cuarto. The 7th regiment of the line made preparations to attack them, but meantime the savages succeeded in carrying off a large quantity of horned cattle and all the horses belonging to the post-houses of Chucal, Arboles, Alba, and Tambito, leaving the coach-roads wholly impassable. The town of Rio Cuarto is in a wretched state, and several of the inhabitants have been killed in this invasion: among others is Doctor Martin Alva, justice of the peace and commander of the National Guards, of whom the Indians have killed 8 and wounded 4.

An immense quantity of cattle has been carried off, and the extent of the ravages is unknown, but it is learned from an Indian taken prisoner that 500 savages have swept Rio Cuarto, 500 more the Sauce, and 500 the district of Las Tunas. The situation of the widows and orphans is described as most lamentable, and the plundered estancieros are reduced to such desperation that a universal cry of indignation against the National Government resounds through the provinces.

The "Cosmopolita," (which formerly blamed the "Standard" for speaking of these invasions), is now loudest in criminal accusations against the War-office.

"It is said that the Minister of War is too busy with the war in Banda Oriental to attend to the invasions of the Indians.

"It is said that he devotes the ammunition and supplies to favor Flores, instead of protecting the lives and properties of Argentines.

"It is said that the public money is sent over to the Oriental rebels, while the Argentine soldiers on the frontier are left unpaid and forced to desert.

"Although these accusations may be untrue, they are not without reason."

NEWS FROM ROSARIO—1000 INDIANS IN SALADILLO.

The news of the Retiro and railway accidents produced a great impression in Rosario. Party-spirit has now so far cooled down that an arrangement between the rival clubs is on foot under Messrs. Peñaloza, Ortiz and others. The editor (D. Eusebio Gomez) of the Ferro-carril has abandoned his post, owing to a quarrel with the proprietor Sor. Quijano. The 'Cosmopolita' has become an evening paper, and takes our view of the Argento-Brazilero-Oriental-Paraguayan 'imbroglio.'

The Central Railway report for the week, ending December 10th, is as follows:—The earthworks are going ahead, there being now 18 miles completed. The engineers are busy at the station of Rio Carcarañia, the flood being still high. The Iron King tug-boat arrived on the 8th, with the brig Margaret Horton, and barque Zelia, which have over 600 tons of rails. The brig Mary has discharged cargo, and is chartered for Europe. The Volante leaves on the 11th for the Uruguay. The Margaret Horton commences unloading on the 12th.

There are no passengers or mails from the Interior, owing to the Indian invasions. A foreigner arrived from Cruz Alta, states that over 1000 Indians swam across the Rio Tercero, and reached Saladillo: they seized a flock of sheep belonging to Colonel Villar, the only food for the garrison, and gave desperate chase to a small company of soldiers on foot.

The former accounts from San Juan state that the people complain that the National Government owes them $80.000 silv., for losses in the Chacho campaign, which were supposed to be paid by the extra War-office supply of three millions of silver dollars voted by Congress for the purpose.

Madame Mollo is still playing Italian operas at Rosario.

COTTON SUPPLY ASSOCIATION.

Manchester, Nov. 7, 1864.

Dear Sirs,

I have to acknowledge the receipt of your esteemed favor of the 26th August, together with the quilt made of wild cotton to which you refer. The sample of fibre you allude to has however not arrived, and as Consul Phibbs has not communicated with us I am unable to enquire of him for it. The quilt is a beautiful specimen of the ingenuity of your people, and has attracted a good deal of attention here. As such useful articles can be made of the material, it would most assuredly pay to collect it, if, as you represent, it is so abundant in your locality. If you will send us a bag, I will get the opinion of some of our manufacturers upon it. I note your remarks about the two gins sent to you.

And am, dear sirs, yours truly.

SMITH O'BRIEN MONUMENT.

51 Fitzwilliam Square West, Dublin,
Nov. 7th, 1864.

To the Editors of the 'Standard.'

Gentlemen,

The Committee of the Smith O'Brien Monument would feel deeply grateful to you if you would kindly lend your great influence to promote the movement in Buenos Ayres, and throughout South America. There must, we feel assured, be many Irishmen in those countries who, if the opportunity were presented to them, would gladly co-operate in this good work.

The accompanying documents, of which we send a parcel, will explain the basis of the movement, which has already obtained the support of some of the best men in Ireland of all creeds and parties. A considerable sum, as you may perceive from the published lists, has already been subscribed, and it is desirable that the subscriptions should include Irishmen abroad as well as at home.

Subscriptions will be received at the Hibernian Bank, the Union Bank of Ireland, and the National Bank, Dublin; also by any of the trustees, or by the hon. secretaries, at 51, Fitzwilliam-square, West, Dublin.

We take the liberty of addressing you, konwing well your desire to promote every enterprise intended to elevate the character of Ireland and her people.

We have the honor to be,
Gentlemen,
Your obedient servants,

AN ARGENTINE VESSEL CAPTURED AND RELEASED.

According to news from Rio Janeyro of the 1st inst., the Argentine barque, Adelaide, from Baltimore, the property of Messrs. Casares and Sons, was overhauled in N. lat. 1 deg. 26 min., and longitude 29 deg., by the Confederate cruizer Shenanoak. After her papers had been examined, she was declared by the Confederate captain to be a lawful prize, and orders were forthwith given to burn her: but a more careful perusal of her papers convinced the Confederates that they had been mistaken, and the barque was accordingly set at liberty and permission given her to proceed on her voyage. Papers were given Captain Williams of the Adelaida, declaring her to be an Argentine vessel, to facilitate her voyage in case of another *rencontre* with Confederate cruisers.—*'Nacion.'*

TERRIFIC HURRICANE AT CALCUTTA

FRIGHTFUL HAVOC AMONG SHIPPING AND RUMOURED LOSS OF 12,000 LIVES.

Suez, Oct. 30.

Calcutta was visited by a terrific hurricane on the 5th instant, which caused immense destruction of shipping

Further telegraphic despatches from Suez state that during the violent cyclone on the 8th Oct. 150 ships were driven from their moorings, stranded and damaged, but no serious loss of European lives. There was little valuable cargo destroyed, but great loss in river craft.

This frightful havoc led to much excitement on Tuesday at Lloyd's. The loss book was surrounded the entire day by crowds of parties interested. At present some doubt exists as to the exact names, owing to errors in the telegram. A vast number of the ships mentioned are insured at Lloyd's and at the different marine insurance compadies', but to form any notion of the probable loss is now impossible. The Peninsular and Oriental Company are their own insurers.

The Paris papers on Tuesday published a telegram from Calcutta, giving the following details of the destruction caused by the hurricane at Calcutta:—110 ships were wrecked, and 12,000 persons drowned. The total loss is estimated 200,000,000 francs. A great portion of the city was inundated, and and the villages bordering on the river were under water.

'The Daily News' says—"It is hoped that the accounts given by the Paris papers of the immense destruction both of property and of human life through the terrible hurricane at Calcutta will prove to be exaggerated. The French steamer Cambodge, which was due at Suez, will bring the mail from China, which in the regular course would have come forward by the Nemesis, reported from Calcutta as on shore. These advices will extend to September 21st from Shanghae, and September 28 from Hong Kong."

By the Bombay mail, due in London on Tuesday next, we may expect letters from Calcutta to the 5th and 6th October and perfect copies of the telegrams already received relative to the fearful destruction of shipping. It is probable it may also bring telegrams from Calcutta up to the 13th, about which time the spring tides set in, and will doubtless float many of the ships driven ashore. The reports received through Paris are believed to be much exaggerated, but there is every reason to fear that the cyclone was accompanied with great loss of life. In 1847, when a cyclone visited Calcutta, 30,000 people were drowned in the villages near the banks of the river.—*Liverpool Mercury.*

A NEW CONFEDERATE CRUISER.

A large ship-rigged steamer, name unknown, has made her appearance off the Madeiras, where she was joined by the steamer Laurel, Captain Ramsey, from this port, and which, it will be remembered, when sailing was reported to have Captain Semmes and the officers and crew of the new Alabama on board. Further news is anxiously awaited.

AMERICAN WOOL MARKETS.

New York, Oct. 20, 1864.

Since our last general advices of September 2nd, there has been from many causes an almost entire suspension of business in the products of the River Plate, and scarcely any sales have been made, excepting such as have been forced, and at prices very unsatisfactory to the seller.

A drought of almost unprecedented duration and extent prevailed during the months of August and September, reducing the water in the streams on which our principal manufactories are situated, so low, as to cause a suspension of work of full one fourth of all the machinery used for woollen fabrics, and even at this time, although the fall rains have in some degree mitigated the evil, yet not to such an extent as is necessary to bring this machinery again into operation. The handling of the American Clip of Wool also engaged the attention of manufacturers to the exclusion of foreign, and this imparted a dullness to the transactions in these descriptions, while the operation of the new Tariff from July 1st preventing the introduction of Foreign Wools, unless at a duty of 6c per lb. in Gold,

has caused holders of the article entered at the low duty, to be unwilling to sell, unless at a corresponding advance in price, well aware that such could not be interfered with by new importations, and added to all these circumstances an exceeding unsettled market for Goods by the high price of Gold, has caused us to pass through three months without any business.

We have also had the misfortune puring the past three weeks to pass through a panic of much intensity, causing a decline in the currency value of Gold of many points, with great rapidity, unsettling values of all kinds of merchandise, and, if possible rendering these three weeks a period of greater dullness than before, and at the same time causing many failures, some of magnitude, particularly in the import trade. That of the old and highly respectable firm of Maxwell Wright & Co. Rio de Janeiro and this place, has caused a great shock to confidence generally, and the unsettled state of the market has also had its influence on the depressing of every article of moment, causing speculators to throw larger supplies on the market than it could absorb, and creating heavy losses to themselves and importers.

Although Wools have suffered a pause in sales, the value is less effected than many articles of import, it being protected by the higher duties that must be paid on the introduction of new supplies and also by the well assured fact that the stocks are not so weighty as to cause inconvenience to the holders, and the belief, well founded, we think, that the supply in the country is inadequate for the wants of the consumers, once the mills can again be put in motion, and to carry us through to a new clip, there is an acknowledged deficiency, which by many is estimated more or less at thirty to forty million pounds of Wool in ordinary condition. Holders of fine and desirable Mestizas are unwilling to name prices that would establish a large decline, being unable to replace their stocks again, unless at a large difference in cost. Many parcels of good quality have been forwarded to Antwerp, and of the Cape Good Hope sorts two or three cargoes have been sent to England.

It is quite impossible to give any correct quotations of value, everything depending on the prices of Gold that now forms the basis of all calculations, and to give them, would mislead at this time. It is quite evident that until a more settled market shall prevail, there will be a diminished business.

HIDES.

Liverpool, Nov. 7th, 1864

Since the issue of our last the arrivals from the River Plate comprise the Florence from Buenos Ayres, the Thames, Caroline and Gerberdina from the Rivers the Evelyn from Monte Video and the steamers Una and Galileo from Buenos Ayres and Monte Video—bringing 1318 Dry and 31,768 Salted Ox and Cow and 1000 Dry and 27,530 Salted Horse. The Clio from Paysandu was also reported with a cargo of Tallow From other quarters the principal imports of Hides have been confined to 1807 Salted North American Horse and 28,000 East India Kips and Buffalo Hides.

There is no change to notice during the past month in the market for Salted River Plate and Rio Grande Hides which continues very quiet, with little or nothing of moment doing. Though holders generally show no disposition to accept lower terms under the existing depression in trade and stringent Money Market a considerable concession would alone tempt purchasers.

GENERAL SHERIDAN.

Paper money fell five centissimos to-day, and notwithstanding its scarcity and the heavy amount to be burnt on Friday, it displays great weakness. Gold is at present very abundant, but many persons complain that it is getting into the hands of parties who intend to hold it. The activity which is expected in the rivers will no doubt call specie into great demand, for the very causes which were supposed would act prejudicially on the saladeristos will tend to augment the profits of the Faena. The Flores revolution and the Brazilian invasion are already beginning to tell, and the Uruguay saladeristos will have more cattle forced on them this year than they have means to kill.

The failure of the large French banking house in Paris, which we referred to in yesterday's number, is not calculated, although connected with several houses here, to do much damage.

In the Wool Plazas some sales were made to-day at from 87 to 95, and buyers seemed more willing to operate. There is not much wool arriving at present, and only about two hundred and fifty carts in the South Plaza.

Respecting the sale quoted yesterday of National Bonds at 30, we are requested to contradict it, as we are informed that the bonds were not sold, but merely hypothecated at this price. We heard of a heavy sale to-day at 32, but as it is not on the board we cannot guarantee it; nevertheless we feel bound to say that these securities are very weak, and will hardly recover until the Braziliians leave the river.

The Provincial Bank, in order to comply with the law, is calling in 20 per cent of all its loans, so as to replace the deficit caused by the burning of the nine millions on Friday.

The merchants of Buenos Ayres are indebted to the courtesy of the Brazilian Consul, for the convenience of a supplemental mail to-day, as owing to the non-arrival of the Tevere the mail bag could not be forwarded, had not the Brazilian gun-boat been facilitated.

Messrs. J. R. Boyd & Co. have placed on the berth the Oldenburg brig Wilhelm, to load for Antwerp, at current rates.

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work, on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Communicator could be fitted with more perfectness or carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 18 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged round the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood

Buenos Ayres, September 19, 1863.

Holloway's Pills.

ENJOYMENT OF LIFE.

When the blood is pure, its circulation perfect, and the nerves in good order, we are well. These Pills possess a marvellous power in securing these great secrets of health by purifying, regulating, and strengthening fluids and solids. Holloway's Pills can be confidently recommended to all persons suffering from disordered digestion or worried by nervous fancies or neuralgic pains. They correct acidity and heartburn, dispel sick headache, quicken the action of the liver, and act as alteratives and gentle aperients. The weak and delicate may take them without fear. Holloway's Pills are eminently serviceable to invalids of irritable constitution, as they raise the action of every organ to its natural standard, and universally exercise a calming and sedative influence.

General Agency and Commission House,
WILD & PERKINS,
Rosario de S. Fé, Córdoba St. 87 & 89.

For the purchase and sale of land in this as well as other provinces; property of every description, domestic produce such as cattle, sheep, hides, wool, grains, metals &c; consignments of produce as well as merchandize to the Interior attended to, despatch of vessels, collections and representations in commercial affairs, &c.

The want of a Land and cattle Agency in Rosario to facilitate the sale or lease of landed property, the examination and arrangement of titles, &c. has been very prejudicial to the interests of new-comers, and has prevented many from purchasing in this Province.

The undersigned will give especial attention to this important branch of their business, and their experience in this as well as other countries inspires them with confidence that, in land transactions as well as other commission business with which they may be favored, they will give entire satisfaction,

CURE TO BE HAD FOR A TRIFLE.
BY
HOLLOWAY'S OINTMENT.

Gout, Rheumatism, Derangements and Stiff Joints.

A cure of these complaints is within the reach of the most humble, by fomenting the affected parts with warm salt and water, and rubbing in Holloway Ointment twice a day. Thousands have been cured who looked upon Gout and Rheumatism as incurable. The same treatment should be employed for the removal of chalk stones, and all painful enlargements or stiffness of the joints. In such cases the Pills should be taken according to the printed directions.

Bad Legs, Bad Breasts, and Ulcerations of all kinds.

The cure of ulcers has won for Holloway's Ointment an imperishable reputation, as this healing Ointment will restore any case, however bad, to soundness. Many bad legs arise from imprudence, happening several years before and almost forgotten: if then there be any doubt as to the origin of the sores, the patient should read carefully what is written on secondary symptoms in the Book of Directions, as those sores never heal soundly until the system has undergone a thorough course of Holloway's Purifying Pills.

Coughs, Colds, Sore Throats, Diphtheria, and Bronchitis.

Any of the above ailments may be quickly cured if the Ointment be well and effectually rubbed into the neck and chest twice a day, leaving the parts constantly covered with a rag spread with the preparation; if this treatment be adopted promptly, in six hours it will effectually stop the most alarming symptoms. It must be evident that an outward application applied to the seat of the disorder must be more effectual than any that can be taken by the mouth. Holloway's Pills should be used according to the directions in order to subdue irritation, inflammation, or fever.

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derangements, which asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy, and must be effectually rubbed twice a day into the suffering parts.

Youthful Indiscretion.

How many poor women suffer from the indiscretion of husbands, which results in bad legs, swellings, loss of health, and rheumatism—as they suppose, although it is nothing of the kind—but the effect of a certain disease taking hold of the system. No ordinary medicine can cure them, because the disease has sunk deep into their constitution. Children often have sores, and bad heads, which do not heal, for the reason that contamination occurres before their birth. Let all who may suffer from such causes have recourse to the purifying and healing properties of these wonderful Ointment and Pills, observing carefully what is said in the book of directions on secondary symptoms, which, if strictly followed, will effect any cure of the kind, but it will be a work of little time.

Both Ointment and Pills should be used in the following disorders:

Bad Legs	Chilblains	Fistulas	Sore-throats
Bad Breasts	Chapped	Gout	Skin-diseases
Burns	Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-head
Bite of Moschetoes and Sand Flies	Cancers	Lumbago	Tumours
	Contracted and Stiff Joints	Piles	Ulcers
		Rheumatism	Wounds
Coco-bay	Elefantiasis	Scalds	Yaws
Chiego-foot		Sore Nipples

Rams—Rams—Rams.

The undersigned, in calling attention to his large and superior stock of Rams and Breeding Sheep, begs to inform his Friends in the Camp that he has on hands a splendid collection of animals, from Three Hundred to Five Thousand Dollars, more, and is confident that each in its class will compete with anything in the province.

In the "Rambouillet type" will be found some fine specimens of the pure blood, besides crosses from the "Merino," possessing the size, shape, and length of staple for which this class is so much admired.

In the "Negrette" he has also some beautiful animals of pure blood, as like wise the "Negrette" drawn from the "fine Merino," a "Cria" remarkable for compact shape and close heavy wool.

In addition to the above he wishes to draw especial attention to his celebrated Argentine breed, between the "Rambouillet" and "Negrette Race," and which, after seven years' experience, he can fully recommend as combining size and shape with length and weight of wool—qualities so anxiously looked for by all experienced sheep-farmers, and which have given so much satisfaction to those who have already purchased of this class. In buying the above in half three-quarter, and pure blood, already acclimatized, there is an immense advantage, as Rams reared in this country are not so delicate and withstand the winter better than imported animals, besides being sold much cheaper, and only requiring ordinary care.

He can likewise supply the above classes in Ewes, either picked or by the hundred, and wishes to remark that all have been in prime condition throughout the past summer.
